

FRIENDS OF STARK STATE COLLEGE

Please plan to attend the next meeting of our ISO/Quality User Group.

During this session we will enjoy a tour of the impressive Detroit Diesel Parts & Manufacturing facility and hear about some of their most recent quality projects. The group will discuss the changes pending for the next release of ISO 9001:2000. Join us for this informal and enjoyable morning. We will trade our experiences and enjoy refreshments at the same time. Bring your questions for the group and/or items for discussion.

What more could you want?

Please RSVP if you plan to attend.

**Where: Detroit Diesel
515 11th St. SE
Canton, OH 44707**
