Career Services

Perfect Interview is an innovative software program that allows users to practice and develop their interviewing skills. This software is now available for use in the Career Services office, Room S100, along with a Logi-Tech Camera to record the interview. Users may choose different levels of interviewing and may save the interview on a CD-ROM or flash drive. This program is easy to use, very professionally done and quite informa-

tive. We encourage all those interested to try out this new tool to see how it can help students with their interviewing skills. Please contact Rita Ridenbaugh, ext. 4271, or Patty Meeks, ext. 4525, to schedule a time. Perfect interview is intended to be a supplement to our mock interview program with volunteer human resource representatives conducting the interview.
