

Setting Activity Stream and Email Notifications

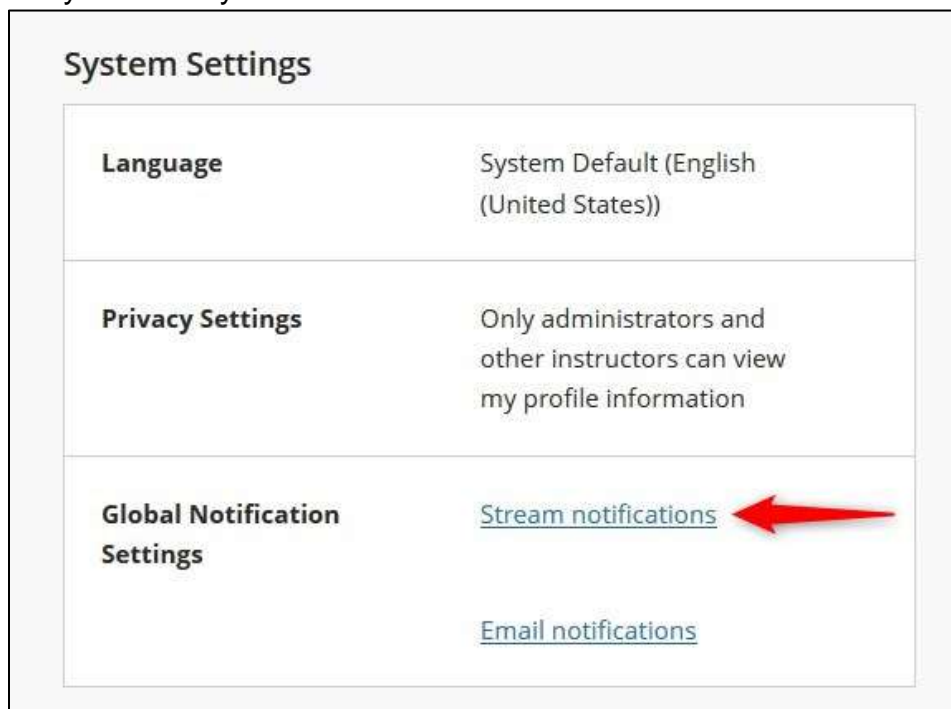

You can set what types of activity stream and email notifications you want to receive.

Directions:

1. Log into Blackboard and Click your **Profile**.

2. Set your Activity Stream notifications. Click **Stream notifications**.

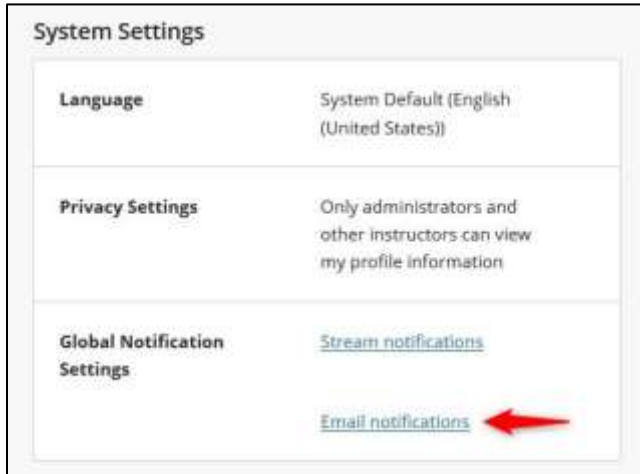

3. Check the items that you want to see on your Activity Stream and then **Save**.

The screenshot shows the 'Notification Settings' page in Blackboard. At the top, there is a 'Profile' header and a 'Notification Settings' title. Below the title, there are two tabs: a yellow tab with a globe icon and a grey tab with an envelope icon. The 'Stream Notifications' section is highlighted with a red box. It contains the following text: 'Notifications for due dates, grades and feedback, and new gradable items always appear in your stream.' Below this, it says 'Also notify me in the stream about these activities:'. There are several checkboxes, all of which are checked: 'New course calendar items', 'New messages', 'New content added', 'New gradable items', 'New courses available', 'New discussion messages', 'Student performance alerts', and 'My performance, activity, and action alerts'. Under 'New discussion messages', there are two radio button options: 'Discussions for all of my courses' (which is selected) and 'Only discussions I'm participating in'. At the bottom of the form, there are two buttons: 'Cancel' and 'Save'. A red arrow points to the 'Save' button.

NOTE: You will not get an email for these. They will appear on your activity stream in Blackboard.

4. Set your Email notifications. Click **Email notifications**.

5. Check the items that you want **emailed to your Stark State email account** and then **Save**.
