A minimum number of students is required to run all dental CE courses.

*In keeping with the guidelines established by the Ohio State Dental Board for licensure/certification, all individuals are required to provide appropriate documentation of immunization of hepatitis B and current certification in CPR in order to participate in any dental continuing education lab course.

While Stark State College does not require additional immunizations, it is strongly recommended by the Centers for Disease Control and Prevention that all health care workers be immunized against vaccine-preventable diseases such as hepatitis B, influenza, measles, mumps, rubella and varicella. Because health care workers are considered to be at significant risk for acquiring or transmitting these diseases in the course of their professions, the Allied Dental Health Department at Stark State College supports this recommendation.

¹U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Centers for Disease Control and Prevention (CDC) Atlanta, Georgia 30333.

Information about items due prior to each course’s first clinical session is available online. You can access the online course content and contact course instructors either one or two weeks prior to the delivery of the face-to-face portion of your course (time frame depends on which course you are taking) using the login provided at the time of registration. Students will not have access to course content prior to the established time.

PLEASE NOTE: Because our system requires BOTH a middle name/initial AND a SS# in order to access course information, participants of this course MUST provide a middle name or initial AND a SS# upon registration. Also, because there is often insufficient time to deliver the packet by mail, students need to be aware the welcome packet will be delivered to the email address provided upon registration. Students MUST check their email to obtain the information necessary to log in to their course(s). If a student neglects to provide an active email address, they may not receive the login instructions in time to participate in the course.
Coronal Polishing for the Certified Dental Assistant
This self-study and hands-on course teaches basic anatomy, exposure control procedures, and indications and contraindications for coronal polishing. You'll complete a two-hour online module prior to the first day of the class. Online you'll learn the basic concepts to prepare for the five-hour face-to-face review, written exam and clinical practice session. You'll practice and demonstrate appropriate coronal polishing techniques on anatomical models and on a fellow student (liability form must be received prior to course delivery). Appropriate certification by DANB or the Ohio Commission on Dental Assisting required. You can access the online course and contact course instructors using the login provided. Course modules will be available one week before the start of the clinical portion. Registration closes on June 5. Lunch provided.

Due prior to the first clinical session
- Copy of appropriate CDA certificate (DANB or Ohio CODA)
- Copy of current BLS certification
- Proof of HepB vaccination/immunity*
- Signed liability form

Instructor: Sheri Herbert, RDH  
Saturday, June 13 • 9 a.m. - 2:30 p.m.  
Fee: $395

Dental Sealants for the Certified Dental Assistant
This course meets the guidelines outlined in the statutes of the Ohio Dental Practice Act for sealant application by certified dental assistants in Ohio. You will receive one hour of online didactic instruction, followed by one hour face-to-face review prior to written exam. The didactic portion will focus on terminology, anatomy, exposure control, dental materials and placement procedures and six clinical hours of demonstration, practice and clinical competency of sealant placement. During the six-hour lab practice session, students will practice and demonstrate appropriate sealant application techniques on anatomical models and typodonts and a fellow student. Appropriate certification by DANB or the Ohio Commission on Dental Assisting required. Registration closes at noon on July 1. Lunch provided.

Due prior to the first clinical session
- Copy of current CDA certificate (DANB or Ohio)
- Copy of current Ohio dental hygiene license
- Signed liability form

Instructor: Patty Weller  
Saturday, July 11 • 9 a.m. - 4:30 p.m.  
Fee: $395

Local Anesthesia for the Dental Hygienist
This self-study, lecture and hands-on course prepares dental hygienists in Ohio for the safe and effective administration of local anesthesia and pain control. Topics include anatomy, physiology, pharmacology of local anesthesia, administration of local anesthesia and indications, precautions and limitations associated with the use of local anesthesia. You'll first complete a 12-hour online module, followed by a three-hour lecture and 14 hours of clinical practice in the techniques of local anesthetic administration on anatomical models and lab partners. You are required to serve as participant partners during the clinical training portion of the course. Completion of this course prepares you to take the NERB examination required for dental hygiene local anesthesia credentialing in Ohio. This course is approved by the Ohio State Dental Board and meets the standards for dental hygienists to be able to administer local anesthesia in the state of Ohio. It will be held in the Stark State College Dental Hygiene Clinic under the supervision of a dentist and qualified dental hygiene faculty. Registration closes on June 4. Lunch provided.

Course participant requirements
- purchase of required textbook from college bookstore prior to completing online module
- completion of online learning modules according to the assigned schedule (online portion will be available two weeks prior to the clinical portion to paid registrants only)
- achievement of 75% on all online exams in order to be permitted to participate in the clinical component.

Due prior to the first clinical session
- copy of current Ohio dental hygiene license
- copy of current CPR/BLS certification
- completed health history form
- completed liability release form
- proof of HepB vaccination/immunity

Instructors: Susan Hebling  
Friday and Saturday  
June 19 and 20 • 8 a.m. - 4:30 p.m.  
Fee: $1,095

Advance your career.

Expanded Functions Dental Auxiliary (EFDA) Clinical Remediation
This hands-on lab course is designed to further prepare an applicant for the EFDA certification exam administered by the Commission on Dental Testing in Ohio, Inc. Besides offering further clinical practice and instruction in EFDA techniques, this course meets remediation requirements for applicants who have not successfully passed the Ohio EFDA certification exam after two attempts. Clinical practice and instruction will be provided through lab review and practice. Course participants will have the added benefit of a mock board simulation experience, completed on the second day, to further prepare applicants for the actual state clinical exam. Students must have successfully completed an approved training program prior to seeking admission into this review course. Students wishing to take this course to meet Ohio Commission remediation requirements should be prepared to provide paperwork stating specific exam deficiencies to the course instructor prior to the first day of class. This enables the instructor to offer specific emphasis and individualized remediation as needed by each participant. Registration closes on July 24. Lunch provided.

Instructor: Nancy Woodruff  
Friday and Saturday  
July 31 and August 1 • 8:30 a.m. - 4 p.m.  
Fee: $525

Refund Policy
A full refund will be made up to 14 days prior to the start of class. There will be a $25 administration fee for refund requests received after 14 days prior to the start of class. You may substitute attendance by calling 330-966-5455.

Registration closes on July 4. Lunch provided.

YES, I will attend! Please indicate the course(s) for which you wish to register.
