Have your eye on a competitive university?

Community college students who transfer to selective four-year schools perform as well as or even better than their peers who come directly from high school. In fact, transfer students from community colleges are the group most likely to graduate.*

Plus, our associate of arts and associate of science degrees are especially seamless to apply toward your bachelor's degree.

Dual admissions program with UA and SSC

- No application fee to UA
- Dually admitted with academic advisors from both institutions
- Zip ID card offers free Metro use, UA sporting events access, library usage and more

UA transfer students also may be eligible for an Akron Guarantee Scholarship award of up to \$2,000. It grows from there as you earn credits!
