## Elevator pitch example

- + Name and major/minor/certificate (*education*)

*Hi, My Name is Logan Smith, and I'm a second year business management major at Stark State College.*

- + How did you become interested in this career path? (*story - your why*)

*I am passionate about management and have been since I was young. I'd work with my dad at our family business, where he managed three employees. He taught me that each customer as well as staff member is important, and a team is only as good as its leader. I knew at that point that I wanted to become a great manager and create innovative ways to provide customer service.*

- + What are you working on/involved in outside of the classroom? What skills are you developing? (*work/internship/student involvement*)

*Although I've gained a strong understanding of the business world through my classes, outside of school, I've developed my organizational skills through my part-time job. I balance working 20 hours a week while maintaining a strong GPA.*

- + What do you hope to accomplish next/looking for an opportunity to...? (*job/internship/info*)

*This summer, I'm hoping to transition into an internship opportunity that will allow me to work in a team-based environment, applying my classroom knowledge to hands-on experience.*

- + Why are you talking to them today? (*interest in the opportunity/company*)

*From my research, I discovered that ABC company has a strong internship program that allows their students to cross train across multiple departments. Your company is also highly involved in supporting community initiatives, which is something I'm passionate about. This made me very interested in ABC, and I believe it would be a strong fit for me as a candidate.*
