STUDENT SIGNATURE: _____ DATE: _____

By signing this application, I acknowledge that I have reviewed and understand the information contained in the ADN Application Packet. I also agree that all information and documentation submitted is true to the best of my knowledge.

As of December 17, 2021, depending on the clinical/practicum site, there are different COVID requirements. Students will receive additional information once admitted to the Health and Public Services program of choice. Most of our Health and Public Services programs require clinical/practicum experience. We cannot guarantee students a site for clinicals/practicums that does not require the vaccination. While exemptions for medical or religious reasons are available, they are based on the clinical/practicum site regulations and approval. Students are required to complete clinicals/practicums as part of program requirements needed for graduation and to sit for testing for certification or licensure. Currently, most healthcare facilities are requiring the COVID vaccination in order to secure employment.

I understand vaccine requirements, including the COVID-19 vaccine requirements, are from the clinical/practicum sites and not Stark State College.
