^Based upon SSC placement score

^^To promote student success, this course should be taken in the first semester

^Because of strong emphasis on science in this major, applicants must have successfully completed Chemistry and Biology in high school. Students who did not complete the courses in high school, and those who prefer to refresh their knowledge of the material, should complete the listed pre-requisites.

#Because DAS125 provides the clinical practice experience needed to meet the clinical experience requirement for the EFDA program, applicants must select the "Clinical Practice" option ("Option A") for this course. *Please see the College Catalog for additional information regarding this course.*

Minimum grade of "C" in all concentration courses is required.

This program requires an application (separate from the College).

Please see your advisor to discuss the application process.
