^Based upon SSC placement score

^^To promote student success, this course should be taken in the first semester

▲Because of strong emphasis on science in this major, applicants must have successfully completed Chemistry and Biology in high school. Students who did not complete the courses in high school, and those who prefer to refresh their knowledge of the material, should complete the listed pre-requisites.

@“B” or better in BIO101 or High School Biology (must be within 5 years)

#BIO121 and BIO122 can be substituted for BIO123.

Minimum grade of “C” in all concentration courses is required. This program requires an application (separate from the College).

Please see your advisor to discuss the application process.
