Required Readings: None

Additional Materials: As needed by each student

Additional Note:

Please note that this class is a DRAFTING class and NOT a CAD class. It is up to each student to decide on the best method to draft each sheet. You have your choice of using Board Drafting, AutoCAD, AutoCAD Architecture, Softplan, Revit Architecture, or any combination you see fit.

If using board drafting, you need to draft on vellum paper and then make a blueprint copy or scan and print the scan on the plotter to submit (like you did in Drafting 1 class)

If using CAD for drafting, no paper is needed.

•All drawings submitted must be the original work of each student. Copying and pasting an existing drawing into any Cad system will be a violation of the "Honesty in Learning" policy.
